Integrated K9 Solutions

to suit your security needs

IK9 Security offers Bespoke Security for your business or your home. We will use every type of security available to give you the most effective security measures available within your budget. For more information or for a free no obligation consultation, please contact us

- All of our staff are SIA badged
- Our K9 Teams are fully accredited
- Our training staff are renowned as the best in their field
- Our Security Teams operate throughout The UK

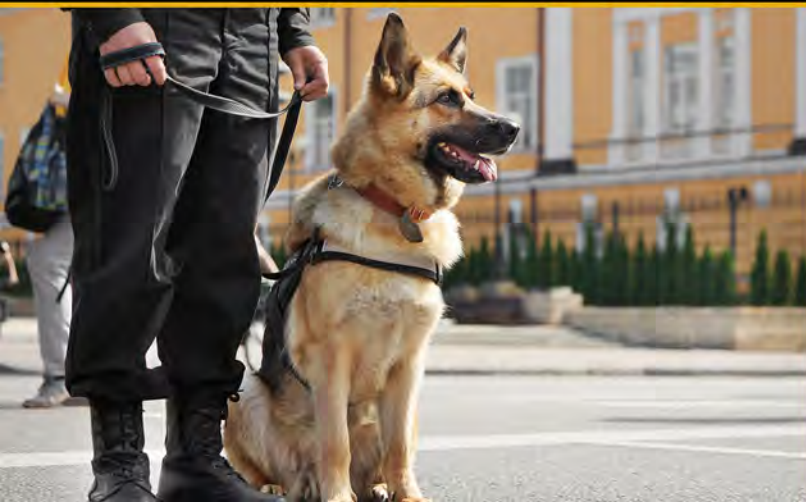

SECURITY DOG HANDLERS

All our staff are fully screened and vetted to the BS7858 standard. We follow the codes of practice of BS8517 for the use of General Purpose Security Dogs and Handlers.

We can provide Security Guards with CSCS cards and first aid training.

Our guards can cover anywhere in the UK on a part time, full time or temporary basis.

We demonstrate, to an independent assessor on an annual basis, that we meet or exceed defined standards. IK9 is insured to £10 million for Employers Liability, £2 million for Professional Indemnity and £5 million Public Liability.

SEARCH DOGS

Search Dog and Sniffer Teams

Cost effective and highly efficient, these dogs can be deployed at short notice for high level security functions and high risk critical infrastructure sites. To date there is nothing as versatile, efficient and cost effective as a well trained sniffer dog team.

Explosive Detection Dog Teams

We have several teams ready to be deployed. All are trained to British Police Standards, having undergone an eight week intensive course given by an ACPO instructor and having successfully completed practical and theory examinations to ACPO Standard.

Search Teams

Our experienced dog handlers must pass an internal practical examination before being elected members of the IK9 Dog SearchTeam.

SECURITY GUARD DOG AND HANDLER TEAMS

“ A trained dog is worth ten officers in a hostile environment. ”

A security dog handler with a highly trained security dog make an unbeatable combination.

There are many benefits a skilled team can bring to a strategic security operation such as:

- The dog can use its heightened senses to scent, see or hear intruders or hidden persons
- By displaying controlled aggression and standing its ground, the dog can protect both security personnel and premises at the same time
- The threat of the animal enables suspects to be detained until arrival of law enforcement
- A dog and handler team are far more cost-effective than other methods of live guarding – one police commander commented that a trained dog was worth five officers in-the-field.

MOBILE PATROLS / ALARM RESPONSE

Our mobile patrols can make timed or random inspections of property, externally and/or internally 24/7, all year round.

Mobile patrol can also secure/unlock and set alarms for you at the start or end of the working day.

Our units offer an escort service, for instance; picking you up from your home, taking you to your appointments and returning you safely home at the conclusion of business.

Equally, they will pick up and deliver valuable or sensitive materials.

BESPOKE SECURITY SOLUTIONS

Our mission is to provide the best and most cost effective security services to our esteemed customers according to their needs and within their allocated budget. It is also our commitment to improve security, integrity and interpersonal skills of our employees so they can achieve the highest standards set by the security industry and by our clients.

Our offices are based in Castleford, West Yorkshire. We also have offices in London and Glasgow, meaning that we can provide security services throughout the UK.
